### **Reasons For Allowance**

1. This application has been examined.
2. An examiner's amendment to the record appears below. This was made to specify in all the independent claims that the operating system registry is accessed to determine which applications are installed and where they each are installed, in order to overcome prior art that simply has any registry table which has the information stored. This amendment also corrects a potential 101 concern by changing to preamble in claim 3 to include "computer program product...including a medium having a computer program embodied thereon, said program comprising..." Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.
3. In independent claim 1 line 3, please delete "a registry" and replace with "the operating system registry"
4. In independent claim 3 line 3, please delete "a registry" and replace with "the operating system registry"

5. In independent claim 5 line 3, please delete "a registry" and replace with "the operating system registry"

6. In independent claim 6 line 3, please delete "a registry" and replace with "the operating system registry"

7. In independent claim 3 line 2, between "including" and "comprising" please delete "a computer program" and replace with "a medium having a computer program embodied thereon, said program"

8. Authorization for this examiner's amendment was given in a telephone interview with Mr. Steven Phillips on 9/28/05.

9. The following is an examiner's statement of reasons for allowance: The Examiner's Amendment 9/28/05 places the application into condition for allowance by specifying in all the independent claims that the operating system registry is accessed to determine which applications are installed and where they each are installed, thus overcoming prior art that simply has any registry table which has the information stored. Especially in view of applicant's remarks filed 6/9/05, the features now combined in the independent claims (1 amended – method, 3 amended – computer program product operating on a system, 5 amended – apparatus, 6 amended – programmed computer

system) are not set forth in the prior art of record. Note also that the amendment obviates any potential 101 concern with claim 3.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
